DETAILED ACTION

1. Amendment and response filed by applicants dated Feb. 24, 2005 have been entered and considered carefully. Claims 3, 8, 10, 14, 15 stayed withdrawn from consideration. Claims 1, 2, 4-7, 9, 12 and 13 are pending.
2. The rejection of claim 1 under 35 USC 112 second paragraph is dropped in view of the amendment making claim 11 independent.
3. The rejection of claims 1-2, 4-7, 9, 12-13 under 35 USC 102(g) is dropped in view of the amendment of claim 1 limiting Z is NR⁹ and R⁹ is non-hydrogen.
4. The rejection of claims 12-13 under 35 USC 112 first paragraph for lacking sufficient disclosure with respect to written description and enablement is maintained for reason of record.

Two publications dealing with sufficiency of description and enablement when limited receptor binding is known and its functionality is being continuously developed are attached for applicants' convenience (see Lendaris or Baker Botts). The claiming of composition for which a down stream utility is continuously being developed is a reach through claim for which the high degree of unpredictability and the continuous development nature has been documented in the previous office action and hereby incorporated by reference. Absence of well documented nexus between the receptor functionality and the end use, a claim to formulate all possible dosage in all possible utility including both treating and preventing diseases such as obesity and its opposite effect disease such as cachexia or anorexia (see claim 12) is self evidenced to be inoperable in absence of specific disclosure of how such opposite effect is achieved with a single compound in a single dosage formula.

Art Unit: 1625

Claims 1-2, 4-7, 9 and 11 compounds are allowable upon cancellation of the nonelected claims.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

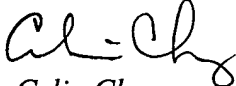

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
